

The University of Utah math department and AWM student chapter present the 4th annual...

WHAT IS MATH?

An opportunity for advanced high-school and beginning undergraduate students to explore topics in advanced mathematics.

11 April, 2015

You are invited to join the University of Utah's chapter of the Association for Women in Mathematics for the fourth annual "What is Math?" day. Graduate students and faculty in Mathematics will present short lectures on various mathematical fields or concepts, and Fernando Guevara Vasquez (University of Utah) will provide insight into why Mathematics is exciting and beautiful.

SCHEDULE

8³⁰-9 Registration
9-10 Keynote Address
10-10³⁰ Session 1
10³⁰-11 Session 2
11-11³⁰ Session 3
11³⁰-12 Session 4

SPEAKERS & TOPICS

Fernando Guevara Vasquez..... Keynote Address
Haydee Lindo..... Groups
Greg Rice..... Statistics
Anna Romanova..... Symmetry
Emily Witt..... Cryptography

Our aim is to inspire curiosity and we hope that attendees will want to explore further study in mathematics. We also hope to foster communication and establish connections between math department faculty and prospective students.
