Tell them you found it in the *NetPages*.

GET CAUGHT IN TRAFFIC WITH PLAYBOY!

Move over, Los Angeles! Forget about it, New York!
 There's never been traffic like you'll find on the Playboy Web site.

The Playboy site receives as many as 4 million hits a day— or approximately 150,000 daily visits.

In fact, Playboy now generates more page views than almost any other site on the Web. The Playboy Page entertains its browsers with superb pictorials, the Playboy Interview, movie, music and book reviews, and notable editorial from the past four decades. That's why the most popular men's magazine in the world is now among the hottest locations on the Web.

Run your company's billboard on the Playboy Superhighway.
 There's no better way to drive traffic to your site.

To advertise your existing hyperlink banner or to let Playboy customize a program for you, please call Lisa Natale at 212.261.5000, or e-mail her at research@ny.playboy.com.

You can form your own corporation ONLINE, in any state, in as little as 8 minutes, as low as \$45

It's amazing but true. The Company Corporation (TCC) has set up more than 125,000 corporations in the last 23 years.

Advantages of incorporating

You know the advantages of incorporating:

- Protect your personal assets
- Get incredible tax breaks
- Deduct health insurance premiums
- Attract investors more easily
- Easy transfer of ownership
- And many more

Cut out the middleman and save up to 90%

The problem is most folks think you have to go through a law firm, pay \$2,000 to \$3,000, wait six weeks and be bogged down with mountains of paperwork just to set up a corporation. Not so when you go through TCC. We need as little as 8 minutes of your time ... over the phone or online. You can be incorporated the same day and it will

cost as little as \$45, plus a state filing fee – usually \$74.

Speed, efficiency, low cost

TCC has been doing this for 23 years. That's all we do. We are hooked up to affiliate offices in every state in the country. We are most famous for our ability to set you up as a Delaware corporation.

We do it all for you

Taking advantage of today's technology, we've made it especially easy for first-timers to incorporate. We are available online through the Internet. Read about incorporating, ask questions of our representatives, or incorporate right online! Type <http://www.incorporate.com> on the World Wide Web of the Internet.

If you're still unsure, try this:

We'll send you a FREE copy of HOW TO FORM AND SERVICE A CORPORATION AT VERY LOW COST! This amaz-

ing publication will tell you everything you need to know to form your own corporation in all 50 states ... legally, quickly, and affordably, with maximum protection for your personal assets.

Control your future

Do your self, your family and your business a favor. Take about 8 minutes and call the number below or get online. We'll incorporate your company on the spot. Or we'll send you our RISK-FREE publication. Either way it will probably be the smartest call you make this year. Incorporating is a powerful step toward controlling your future. Take that step today.

Phone: 800-542-2677 ext. 5765

WITH ANY OLD MODEM, YOU CAN SURF THE INTERNET.

WITH 3COM IMPACT,™ YOU CAN SHRALP IT.

► Okay, so you're surfing the World Wide Web, and your browser software is incredibly cool and the Web is incredibly cool, but very quickly you learn that the cooler the content, the longer you have to wait for it to crawl through your modem. And that's not cool.

But then you learn about the 3Com Impact,™ which gives you a fast, economical ISDN connection. And soon, instead of just surfing the net, you're shralping.

3Com Impact
ISDN modem

(In case you don't surf, that means viewing web content at 128 Kbps, that's at least four times faster than even the quickest analog modem. Sound good?)

But when all the fun's over and it's time to go to work, you'll be glad to know that the speed of ISDN access is there to provide powerful teleworking productivity. (The boss made us put that in.)

The 3Com Impact works with Windows 95, Windows 3.1, and later, DOS and Macintosh systems. And because it's from 3Com, you know it's designed smart and built tough.

So towel off, sit down, and contact us at 1-800-NET-3Com, and we'll send you a free CD or diskette* that demonstrates the benefits of using ISDN versus analog.

To claim your place
on the Internet business frontier,
choose an experienced guide ...

NYSERNet

- A versatile range of secure offsite Web services, from 10Mb to 1,000 Mb dedicated servers, at the lowest prices
- Web hosting located on our 90 Mb (dual T3) Network backbone
- NYSERNet's Internet Implementation Process, including training programs to help you to focus the power of the Internet on your business
- A decade of Internet experience
- The fastest, clearest transmission available
- Built-in reliability
- Advanced security
- Superior service at competitive cost
- An R&D commitment to leading edge technology
- Customer Support Center
- An outstanding cadre of professionals

An Invitation to the *REVOLUTION*

The numbers are staggering . . .

6 million Internet computer hosts.

30 million to 50 million Internet users.

10,000 new computer hosts connected every day.

What does all this have to do with you?

Everything.

Whether you're a technologist, a developer, or simply a user, you've seen firsthand the rapid growth of the Internet. Keeping pace with it is no easy feat. But if you want to stay competitive, it's more than just a luxury. It's a necessity. Today's technology is growing and changing faster today than ever before, and how it plays out will absolutely influence the your future.

You can either choose to have a stake in the future or choose to be left behind.

Since 1992 the Internet Society has served as the international organization for global coordination and cooperation on the Internet, promoting and maintaining a broad spectrum of activities focused on the Internet's development, availability, and associated technologies.

The Internet Society acts not only as a global clearinghouse for Internet information and education but also as a facilitator and coordinator of Internet-related initiatives around the world. Through its annual International Networking (INET) conference and other sponsored events, developing-country workshops, tutorials, statistical and market research, publications, public policy and trade activities, regional and local chapters, committees, and an international secretariat, the Internet Society serves the needs of the growing global Internet community.

Be a part of the revolution.

Join the Internet Society today.

Please enroll me as an individual member of the Internet Society. In addition to being a significant contribution to the evolution of the Internet and its use, membership entitles me to a subscription to *OnTheInternet* magazine, reduced rates at Internet Society conferences, and other benefits.

Checklist for Choosing a Network Provider

Excerpt from *Connecting to the Internet, An O'Reilly Buyer's Guide* by Susan Estrada

Reliability & Performance

- Is the end-to-end roundtrip time greater than 500 milliseconds?
- What is the local roundtrip time for connections like the one you want?
- Can I get a service guarantee? What is it?
- What are typical outages and how long do they last?
- What kind of monitoring system does the provider use?
- Is there a trouble ticket system? What are problem resolution procedures?
- What are the escalation procedures?
- How do you tell the provider that something is broken?
- Is there a phone and/or email address for trouble reporting?
- How will you know when the problem is fixed?
- What are the NOC hours of coverage?
- What happens if the NOC is not covered when you have a problem?

Restrictions

- Are there any restrictions on how I use the network?
- Are there any acceptable use policies?
- How do you route commercial traffic?
- What other networks do you connect to directly? At what speeds?
- If you have specific data destinations identified will you traverse AUP networks?
- What is the slowest connection in the path?

User Services

- Can I use all of the Internet tools and services I need?
- Does the provider have a User Services department? What do they do?
- How much does it cost — extra or included?
- What extra services does the provider offer? How much do they cost?

Rapport

- Is the provider working for me? Am I getting honest, straight answers to my questions?
- Will I continue to get these after I have made my selection?

Security

- Am I concerned about unwanted intrusions on my computer?
- What techniques does the provider recommend or support for security at your site?
- What are the procedures for ensuring my data is kept private?

Viability

- Does the provider plan to upgrade to the newest technologies when I need them?
- What is the contract or agreement like?
- Can I live with the terms and conditions?

References

- Get at least three references and call them.
- If you can, check online in newsgroups or mailing lists.

Cost

- Do I know what I am getting for my fees?
- Do I have a budget for a connection?

Free Connections

- Is a free connection right for my needs?
- Do I know anyone who will give me one?

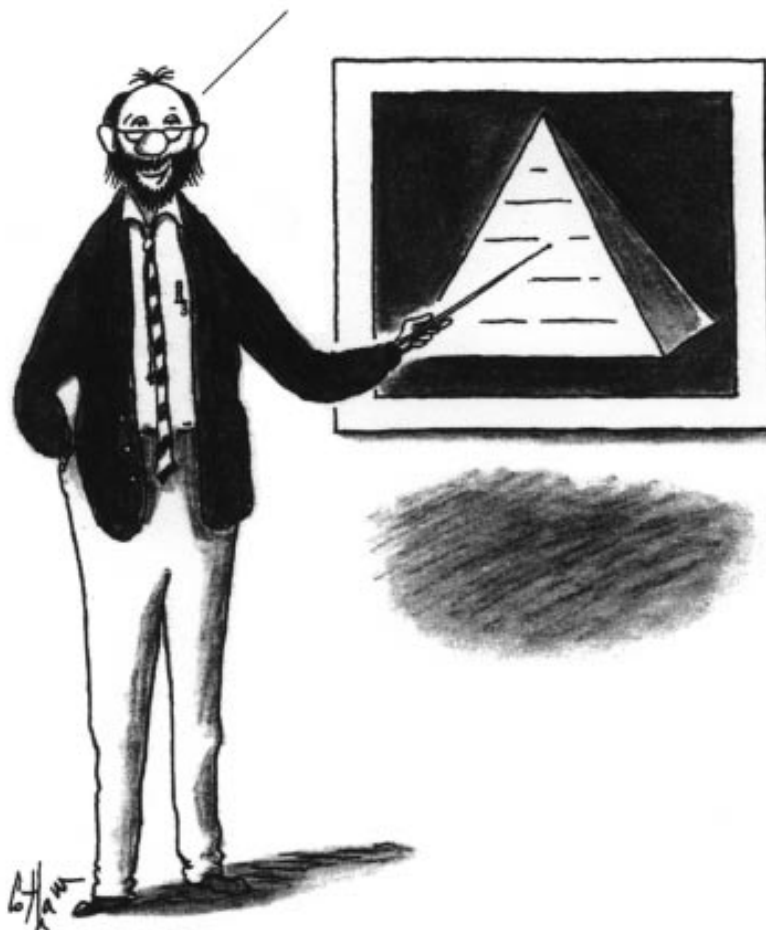

Friendly Connections

- Is a piece of someone else's connection the right link for me?
- Have I used the evaluation criteria here to ensure that I am getting a high quality connection?

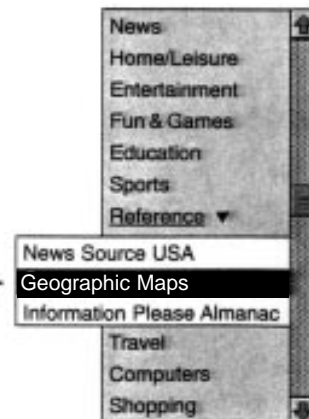

Finding Providers

- Do I have the most recent listing of providers?
- Do I need to get additional lists?

"In today's class we'll be studying these pointy buildings that were built by those sweaty people in that really hot area."

Sometimes life calls for deeper answers ▶

If you thought all online services were the same, think again. For just \$9.95 a month, compuserve gives you Internet access and more detailed information on the subjects you're interested in than any other online service. Because CompuServe has the strongest relationship with the best sources for news, sports and entertainment, you're always plugged in to Money, Rolling Stone and Forbes, just to name a few. Don't be left only half-informed again. Call today and sign up.

WOMEN'S WIRE
 Women's Wire is a hip, interactive magazine focused on women's interests available on the Web. Topic areas covered include health, investing, careers, relationships, fashion, current events, fitness and humor. Updated daily and weekly, Women's Wire features women in the news, advice columnists, statistics, quotes from newsmakers, opinion and a comprehensive list of other women-oriented sites.
