

Below is my general weekly schedule. Any of the times that are open I'm generally available to meet with students. You can always knock on my office door but if you want to make sure I'm in and available it is best to make an appointment in advance. I often work from home on Thursdays but I'm happy to come in to meet with students if you give me some warning. If you work during the day and would like to meet with me after 5 that is also possible but we will definitely need to arrange the time in advance.
